Molecular and Cellular Biochemistry:

An International Journal for Chemical Biology in Health and Disease

CONTENTS VOLUME 166, Nos. 1 & 2, January, 1997

A. Gupta and R.S. Sandhu: A new high molecular weight agglutinin from garlic (*Allium sativum*) 1–9

M. Wientzek, B.G. Allen, G. McDonald-Jones and S. Katz: Characterization of calcium-dependent forms of protein kinase C in adult rat ventricular myocytes 11–23

S.R. Chatterjee, T.S. Srivastava, J.P. Kamat and T.P.A. Devasagayam: Lipid peroxidation induced by a novel porphyrin plus light in isolated mitochondria: Possible implications in photodynamic therapy 25–33

M.K. Ghosh, M. Mukhopadhyay and I.B. Chatterjee: NADPH-initiated cytochrome P450-dependent free iron-independent microsomal lipid peroxidation: Specific prevention by ascorbic acid 35–44

A.C. Cicogna, W.W. Brooks, J.A. Hayes, K.G. Robinson, S. Sen, C.H. Conrad and O.H.L. Bing: Effect of chronic colchicine administration on the myocardium of the aging spontaneously hypertensive rat 45–54

M. Sidhu, R. Prasad, K.D. Gill and R. Nath: Alterations in isoforms of glutathione S-transferase in liver and kidney of cadmium exposed rhesus monkeys: Purification and kinetic characterization 55–63

E. Nagababu and N. Lakshmaiah: Inhibition of xanthine oxidase – xanthine – iron mediated lipid peroxidation by eugenol in liposomes 65–71

J. Gorski and A. Bonen: Palmitate incorporation into lipids pools of contracting red and white muscles 73–83

S.C. Hendrickson, J.D. St. Louis, J.E. Lowe and S. Abdel-aleem: Free fatty acid metabolism during myocardial ischemia and reperfusion 85–94

S.M. Goicoechea and R.D. Conde: Influence of protein nutrition on calpain activity of mouse kidney: Modulation by calpastatin 95–99

S. Dai, D.J. Morré, C.C. Geilen, B. Almond-Roesler, C.E. Orfanos and D.M. Morré: Inhibition of plasma membrane NADH oxidase activity and growth of HeLa cells by natural and synthetic retinoids 101–109

T. Madan, B. Banerjee, P.K. Bhatnagar, A. Shah and P.U. Sarma: Identification of 45 kD antigen in immune complexes of patients of allergic bronchopulmonary aspergillosis 111–116

R. Gornati, S. Basu, G. Bernardini, A.M. Rizzo, F. Rossi and B. Berra: Activities of glycolipid glycosyltransferases and sialidases during the early development of *Xenopus laevis* 117–124

A. Bahinski, A. Yatani, G. Mikala, S. Tang, S. Yamamoto and A. Schwartz: Charged amino acids near the pore entrance influence ion-conduction of a human L-type cardiac calcium channel 125–134

P.S. Tappia, S. Ladha, D.C. Clark and R.F. Grimble: The influence of membrane fluidity, TNF receptor binding, cAMP production and GTPase activity on marcophage cytokine production in rats fed a variety of fat diets 135–143

S. Kishi and M. Yamaguchi: Characterization of zinc effect to inhibit osteoclast-like cell formation in mouse marrow culture: Interaction with dexamethasone 145–151

L.P. Turcotte, A.K. Srivastava and J.-L. Chiasson: Fasting increases plasma membrane fatty acid-binding protein ($FABP_{PM}$) in red skeletal muscle 153–158

C. Masters: Gluconeogenesis and the peroxisome 159–168

P.S. Babu and K. Srinivasan: Hypolipidemic action of curcumin, the active principle of turmeric (*Curcuma longa*) in streptozotocin induced diabetic rats 169–175

Y. Hattori, S. Hattori, S. Motohashi, K. Kasai, S.I. Shimoda and N. Nakanishi: Co-induction of nitric oxide and tetrahydrobiopterin synthesis in the myocardium *in vivo* 177–181

S. Ueoka and M. Yamaguchi: Effect of apoptosis-related compounds on Ca^{2+} transport system in isolated rat liver nuclei 183–189

Index to volume 166 191–193
